Begin with a circle.

Now draw two lima bean shapes for his beak- one medium, one small. Add two bent triangles for a tail.

Now add a lima bean shape under the circle.

Little Quack's eye is a small oval. Add two triangles on top for hair, a rectangle on the big lima bean, and a triangle underneath for a foot.

Next, add a bump to the lower left part of the circle.

Now fill in the eye, but not all the way! Round those edges, erase a little and remember- Little Quack is fuzzy. You did it! He's ready to play!
